Questão: /Question:

Dear,

I am Giovanni De Beyter, I am 30 years old and I live in Belgium (Europe), first I did university, afterwards MBI general management. Now I'm working in a management team for Yara, a fertilizer multinational company.

I want to start a company in Brazil, in the West-Bahia district, near the city of Barreiras. I would like to start an *Eucalyptus* pilot project of 100 ha. After the first cycle I would use the profit to expand my plantation to 500 ha, and so on. I would do the management by myself and hire locals to get the work done (fertilization, planting, harvesting). 100 ha is

a little area plantation, so I'll be doing the management by myself, I think I could get nice profits. Maybe later I expand and open shares for investors.

I would like to start early next year. So this year I would set up the company and buy a 250 to 500 ha plot. In the meanwhile I would like to learn as much I can about *Eucalyptus* industry and its practices (plantation, harvesting etc). I found your site, which is very interesting. I would like to get my hands on as many resources possible, also I would like to know if you could get me into contact with other persons with a lot of experience who could help me to get started.

Thank you in advance

Best regards
Giovanni De Beyter

Dear Mr. Giovanni De Beyter, good morning.
I wish good luck and a lot of success in your *Eucalyptus* plantation project in Brazil.
Unfortunately, I'm not involved in providing consulting services in such kind of business, however, I would like to suggest you to get in touch with a great forester here in Brazil who may eventually become interested to join you with these achievements. His name is Mr. Rubens Garlipp (cgarlipp@terra.com.br). Please, make an e-mail message contacting him to see availability and interest.

Best regards
Celso Foelkel
