Título:/Title: Wood moisture in eucalypt woods

por: / by: Jeff Wright

E-mail: jawright@arborgem.com

Questão: /Question:

Celso

As always I greatly enjoy your newsletter.

One thing I have been looking for is report on moisture content in eucalypt wood.

Do you have any references for that?

Muito obrigado

Jeff Wright

Resposta por Celso Foelkel: / Answer by Celso Foelkel:

Dear Jeff, thanks for your message, although I'm replying so late, sorry,

Moisture content and water in *Eucalyptus* wood, please have a look in the texts I've written in Portuguese (use Google Translator, but you have to do this in short texts, because it does not run for long ones):

http://www.eucalyptus.com.br/artigos/news51_Secagem_Madeira_Biomassa.pdf

and

http://eucalyptus.com.br/eucaliptos/PT41_Densidade_Basica_Madeira.pdf (Pages 59 till 84)

and

http://www.celso-foelkel.com.br/pinus/Pinus49_Agua_Madeira_Pinus.pdf (Water in pinewood)

Check also the provided literature references.

Best regards and thanks for your continuous support and comments about our publications.
