Questão: /Question:

Hi Celso,

I'm trying to track down more information about *Eucalyptus smithii*.

I want to confirm that the eucalypt that we have is not one of the 6 listed invaders and need some more details of the plant.

Many thanks

Chris Williams

Good morning Chris, unfortunately, I do not have experience with *Eucalyptus smithii*, but I was able to find some information about it using Google:

https://www.google.com.br/?gws_rd=ssl#q=%22eucalyptus+smithii%22+%22invasive+potential%22

and

The best person to contact in this case is Dr. David Kleinig, from Australia – one of the best experts in the world about species of *Eucalyptus* genus:
